R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.
When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
```

```
##      speed           dist
##  Min.   : 4.0   Min.   :  2.00
##  1st Qu.:12.0   1st Qu.: 26.00
##  Median :15.0   Median : 36.00
##  Mean   :15.4   Mean   : 42.98
##  3rd Qu.:19.0   3rd Qu.: 56.00
##  Max.   :25.0   Max.   :120.00
```

Including Plots

You can also embed plots, for example:

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.

```
library(stargazer)
```

```
##
## Please cite as:

##  Hlavac, Marek (2015). stargazer: Well-Formatted Regression and Summary Statistics Tables.

##  R package version 5.2. http://CRAN.R-project.org/package=stargazer
```

```
df<- data.frame(y = rnorm(100), y = rnorm(100))
model=lm(y~y.1, data=df)
stargazer(model, header=FALSE, type='latex')
```

Table 1:

	Dependent variable:
	y
y.1	−0.142
	(0.101)
Constant	−0.108
	(0.107)
Observations	100
R^2	0.020
Adjusted R^2	0.010
Residual Std. Error	1.069 (df = 98)
F Statistic	1.962 (df = 1; 98)

Note: *p<0.1; **p<0.05; ***p<0.01
